Optional Backs for steps

The back side of most of our step models is open. This is not a problem since most customers will place the open back against the object they want their pet to reach. A few customers may want to turn the step sideways in order to have the step not stick out quite so far. These customers may want to order the steps with the back covered. Take note that in cases where our dealers offer backs as an option, very few customers will order the back.

Note that backs are included on the Tiny 4, Tiny 6 and Mini 6, 7 and 8.
