### Benefits

Pet steps are fast becoming an indispensable aid for concerned owners who value their pets' independence. Pet stairs are useful not only for elderly or infirm dogs and cats but for little creatures that can't reach their favorite places without jumping or human assistance. Also, many owners can no longer help their pets access the bed or sofa.

Animal Stuff Inc. has designed an innovative series of steps to accommodate all sizes of pets. From the tiniest to the largest, we have a model that meets your requirements. Our pet stairs are constructed of plywood and covered with attractive, durable plush cut-pile commercial carpet.

We also offer a convenient drop-ship service.

### Colors

We offer our steps in the 5 standard colors shown at right and 3 optional animal prints.
